

Jayne Shrimpton - Services and Terms 2020-21

I offer three levels of personalised picture dating and analysis for photographs, paintings, drawings and silhouettes. Images of adult females can usually be dated closely, while images of men, children and elderly ancestors generally suggest a slightly broader time frame. *All of the services below provide an accurate date range.*

(1) Basic Picture Dating - A no-frills date estimate for your picture

I provide an accurate date range, almost always to within 10 years and often to within 3-7 years. I also explain in a few lines the evidence used to determine the date estimate.

£10 per image (Discount: £9 each for 6 or more images)

(2) Picture Dating and Analysis [Most popular option]

This is a more analytical service: a minimum three-quarter page report on your picture indicating its historical context and a consideration of the ancestors or relatives portrayed

I provide an accurate date range, as above; brief explanation of the photographic/artistic format; age estimates for the subjects; and suggestion as to whether the image represents a special occasion such as engagement, marriage, birthday or mourning.

£25 per image (Discount: £22 each for 6 or more images)

(3) Picture Dating and Advanced Analysis

This is a highly detailed 1 ¾ - 2 page analysis and explanation of your special picture.

Based on (2), this also includes some additional research if necessary, and detailed explanation of the image: ideal for large group scenes or complex pictures. Clients can also air subsequent queries.

£55 per image (Discount: £49 each for 6 or more images)

Sending pictures

Email communication is ideal, but not essential. Please send your images before making payment, so that I can confirm the picture quality permits a firm date. **Please scan each image separately at 300 dpi or higher resolution and include separate reverse views of card mounts. Jpeg files are perfect.** If posting, please send good copies.

Please do not post original photos.
